February 19, 2016

Dear Glen Rock Parents/Guardians,

The "Journey to Somewhere" continues...

A very special Glen Rock Board of Education *Community Relations Committee* event will take place on February 23, 2016! You may recall that, last March, the keynote program in our speaker series featured Dr. Denise Pope, senior lecturer at Stanford University and co-founder of Challenge Success. Based on the success of that program, we are bringing Dr. Pope back by way of SKYPE to engage with the public once again. You are invited to participate in this interactive session from 7:00 - 8:30 p.m. in the Glen Rock High School Media Center.

Dr. Pope will converse with participants on topics related to her recently published book, "Overloaded and Underprepared," as well as engage on topics of interest to participants and relevant to raising happy, healthy, well-balanced children.

I want to encourage you to join this event as I am sure the time you spend will be personally enriching. Please reserve February 23rd on your personal calendar, and bring a friend along with you to join the discussion. Dr. Pope's presentation will be an enlightening event that I'm sure all who are involved in the process of raising children will find engaging and informative.

In addition, I hope you will plan to attend this year's dynamic Community Relations speaker series program when Dr. Kenneth Ginsburg comes to the district on March 31, 2016. Dr. Ginsburg is a pediatrician specializing in Adolescent Medicine and a Professor of Pediatrics at the University of Pennsylvania School of Medicine. He will address parenting in the twenty-first century, the "Seven Cs of Stress," "Stress and Perfectionism," and taking care of teachers so they can take care of our kids.

Sincerely,

Paula Valenti, Ed. D.
Superintendent of Schools
